

## 10. More about bathroom safety

### What to do - Students

1. Use lots and lots of imagination to think about hazards in the bathroom.
2. Write an article for the Internet about a “Safe bathroom of the future”.
3. Your description can be as imaginative and way out as you like – like having a bath that talks to you, or floors that clean themselves when they are dirty or someone spills something.

### Teacher tips

**Curriculum Framework: This activity links to CF outcomes:**

The Arts	1,2
English	1,2,9
Health and Physical Education	
LOTE	
Mathematics	
Society and Environment	
Science	
Technology and Enterprise	1

**Conducting the activity:** This activity is designed as a whole class, or small group or individual task.

**Class discussion:** How could technology help make bathrooms safer in the future?

Students discuss hazards in the bathroom and how they can be controlled then write an imaginative article.

**Expanding the activity:** Expand the activity by getting the students to investigate technological developments or ideas and designing and drawing a bathroom of the future.
